Call for Special Session Proposals

Aim of the special sessions:

DTTIS 2024 seeks proposals for Special Sessions. These should aim at providing a complementary experience with respect to the regular sessions by focusing on hot and emerging topics of interest to the DTTIS community (Edge AI, Security, In-Memory Computing, Reliability aspects in Machine Learning, Quantum Computing, Flexible electronics, etc.). A special session can consist of a set of individual presentations or a panel. Participation of experts from the industry is welcome and encouraged.

Publication: Upon acceptance, special session presenters can prepare either one paper per speech to be included in the formal proceeding or a single paper for the entire session. For this reason, papers (presenting original and unpublished contributions and that may be 4 pages or 6 pages long) will go through a review process. Accepted papers will appear in the formal proceedings of DTTIS 2024 conference. Proceedings will be published by the IEEE and appear in the IEEEExplore Digital Library.

Submission Guidelines: Authors are invited to submit Special Session proposals by preparing a manuscript that should include: a title, an abstract outlining the scope of the session, name, contact information and short biography of the Special Session organizer.

For individual presentations, proposal must include the complete list of the three contributed presentations (including titles, presenter names, contact information of the corresponding presenter, and an abstract of each contribution).

For panels, proposal must include a list of three to five panelists and their area of expertise.

Proposal submissions should be presented in a single PDF through the submission portal on the website: <https://www.dttis2024.org>.

More information on the Special Sessions can be requested from the Special Session Co-Chairs:

Jean-Max DUTERTRE: dutertre@emse.fr

Moritz FIEBACK: m.c.r.fieback@tudelft.nl

General conference information:

Riccardo CANTORO, Program Chair: riccardo.cantoro@polito.it

Cristian ZAMBELLI, Program vice-Chair: cristian.zambelli@unife.it

Hassen AZIZA, General Chair: hassen.aziza@univ-amu.fr

By means of their submission, all presenters agree to register for and participate to DTTIS 2024, in case their special session proposal is accepted.
